

The image features a collage of chemical-related elements. At the top left, there are faint, light-colored molecular structures. Below this, a dark green diagonal shape overlaps the top-left corner. The central part of the image shows a laboratory scene with a person in a white lab coat and blue gloves working with glassware. In the foreground, there is a molecular model with black and white spheres, a test tube rack with yellow and orange tubes, and several glass flasks containing blue and red liquids. A periodic table is partially visible in the background, showing elements like Pd, Ir, and Pt.
